Product Description

Pipe Clips

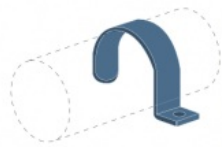

These clamps provide stability and support for the installation of plumbing fixtures, such as sinks, toilets, and showers.

They ensure proper alignment and positioning of pipes for efficient water flow and drainage.

Pipe clamps are often used in the construction of handrails and guardrails, providing support for pipe-based railing systems.

Pipe clamp is applied in the areas of pipeline systems. E.g.: sanitary and heating installations, gas distribution systems, air conditioning systems, etc..
